Swan Tyres

“Proven to be the fastest Targa/Track DOT approved tyre, offering outstanding performance and durability available in sizes from 15” to 19”.

The Pilot Sport Cup uses dual zone tread compounds, the outer shoulder compound optimized for cornering and the inner compound focused on wet road performance. These tread compounds are molded into a 5.0mm deep asymmetric tread design that features a solid outer shoulder block and longitudinal grooves and independent tread blocks on the inner portion.

Internally the Pilot Sport Cup features two, full width steel belts to stiffen the tread area to help prevent the contact patch distorting during aggressive acceleration, cornering and braking. The Pilot Sport Cup has evolved in conjunction with Michelin’s motorsport technology and Pilot Sport line of maximum performance tyres.

DESCRIPTION Pilot Sport Cup	Load/ Speed Rating	Price* \$AUD	Price* \$NZD	Rim Width range inches	Section width on		Overall Diameter	Tread depth (mm)	Max Load (kgs)
